*The All-In-One Solution For Busy Small Offices*

F A C S I M I L E S Y S T E M

# F250

# F250

Your small office can start working smarter with the Gestetner F250. Not just another machine, the Gestetner F250 also offers printing, scanning and convenience copying – all as standard functions. And, an exceptionally compact footprint enables the Gestetner F250 to fit on even the most crowded desktop, placing total document management just an arm's length away.

## SIMPLY A GREAT FAX

Featuring a wealth of capabilities designed to simplify all aspects of the fax process, the Gestetner F250 increases your productivity the minute it comes out of the box. Store frequently called fax numbers and recall them at the touch of a key, which eliminates manual dialing. Scan outgoing fax documents in as little as 1.5 seconds per page using the 20 page Automatic Document Feeder, and then let the F250 transmit those documents to their destinations in just 3 seconds per page\* – a great way to reduce your phone bill. Get through peak times uninterrupted with the F250's 250-sheet paper supply. And, with up to 160 pages of memory and a 72 Hour Battery Backup function, you won't miss any incoming faxes in the event you run out of paper – they'll go directly to memory and be protected until you're ready to print them.

## MULTIFUNCTIONAL VERSATILITY

### Printing and TWAIN Scanning

Using either the standard parallel or USB port, you can quickly connect your Gestetner F250 directly to your PC and start enjoying the benefits of printing and scanning. Output print jobs at a speedy 17 ppm, at up to 600 dpi resolution for professional results every time you click "print". Bridge the gap between the hardcopy and digital worlds by scanning black and white images – photos, newspaper articles, technical drawings and more – directly to your PC, where it's easy to add them to your electronic files.

### Convenience Copying

Need a quick copy of a bank statement or multiple copies of an informational flyer? Your Gestetner F250 can do it for you! You can even reduce or enlarge originals to accommodate special filing, mailing or faxing requirements. And, a generous 250 sheet paper capacity enables you to complete those copy jobs – in addition to print jobs and fax receptions – without stopping to replace paper.

## SMALL IN SIZE, POWERFUL IN ACTION

Finally, there's an affordable and productive document management solution for small offices that are short on everything except work! For more information about the Gestetner F250, contact your authorized Gestetner dealer.
